

## ABIFOR AG

This company covers 100% of its electricity requirements with hydropower from NaturEnergie in the period 1 January 2011 to 31 December 2013.

NaturEnergie is produced primarily in German hydropower plants on the Upper Rhine.

No CO<sub>2</sub> emissions are created during the production of NaturEnergie and there is no radioactive waste.

In comparison to the federal German electricity mix, this currently represents an annual saving of

**365,08 t CO<sub>2</sub>.**

We thank you for your commitment for the benefit of sustainable energy supply.

**Erich Kohler**

Deputy Sales Manager

**Dieter Mattersteig**
